

Research without Fear

Animal rights extremism is on the rise in the US – especially at the nation's universities. Scientists are working in a climate of fear. There have been threats, arson attacks and home invasions. This cannot go on.

Speaking of Research is urging students to defend lifesaving biomedical research. Its founder, Tom Holder, was instrumental in the formation of Pro-Test, the UK student group which boldly stood up against animal rights extremists in the UK.

Pro-Test received critical acclaim from newspaper editorial boards in the UK, policy makers, and even then-Prime Minister Tony Blair.

Tom Holder will speak on the University of Washington campus on **Monday, April 21**, noon - 1 pm in Hogness Auditorium (Health Sciences A420), regarding the importance of animal research and the importance to fight against a small, but loud and violent, group of animal activists.

You can obtain your tickets at:

<http://www.wanprc.org>

Admission is free.

To request disability accommodation, contact the Disability Services Office at: 206.543.6450 (voice), 206.543.6452 (TTY), 206.685.7264 (fax), or email at dso@u.washington.edu. The University of Washington makes every effort to honor disability accommodation requests. Requests can be responded to most effectively if received as far in advance of the event as possible, preferably at least 10 days.
